SUNDAY Morning, June 27

9:30am Shane Claiborne in town (likely flying in Sat Night) for RAWtools PeaceMaker Service led by Mike and Shane, appx 90 minutes at most. This would be in place of the service time at Boulder Menno, so any feedback on logistics for this amount of time is appreciated from Boulder folks. This can be flexible. It would be perfect if weather cooperated to have this outside in the lawn.

Logistics

- Free to attend, registration required.
- Likely will need a livestream version. [Jes Stoltzfus-Buller of MCC](#) may be able to put some funds to help sponsor and draw some national interest for the live stream.
- Folks can plan for **food on their own** unless there are other suggestions.
- **Big tent** likely needed for outside and main sessions. Hopefully workshops can happen inside with groups broken down and spread throughout the building, likely still masked but hopefully we are able to be more lenient on spacing at that time.
